

Breast Health Support

Breast cancer is the most common form of cancer in the UK.

When you are 50 years old you will be asked to come for your first breast screening appointment.

It is important to go to your breast screening appointment to keep you safe and well.

Sheffield Mencap and Gateway can support you to understand your breast health and go to any appointments. Contact us for a chat:

healthprojects@sheffieldmencap.org.uk

How we can support you

phone doctor

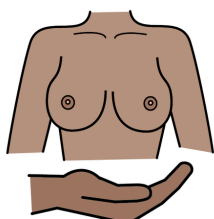

Change your appointment time or date.

support going to hospital

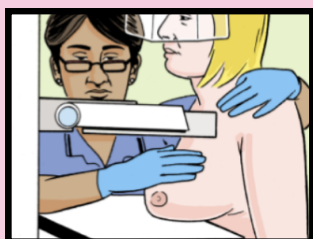

Help you get to your appointment if no other support is available.

breast care

Show you the correct way to feel your breasts and check for any signs of breast cancer.

Help you understand what a mammogram is and what it does.
